

Name of the VRDL: **Kanyakumari Government Medical College and Hospital, Kanyakumari.**  
ICMR ID: 624926903

## RT-PCR Test Report

Date and time of reporting	2022-01-04 20:08:11
Address of the referring facility/Hospital	
<b>SPECIMEN DETAILS Nasopharyngeal Oropharyngeal</b>	
Date of onset of illness	
Date & Time of sample collection	2022-01-04 12:11:54
Date & Time of receipt of specimen at VRDL	2022-01-04 13:00:10
Condition of specimen received / Quality on arrival	Good
<b>REPORTING DETAILS</b>	
Report ID	1210722

Sr.No	Patient ID	Sample ID	Patient Name	Age	Sex	Specimen type	Date of sample testing	Result	
								SARS-CoV2	Other Respiratory viruses
1	1210722		BRISTINY	28	F	Nasopharyngeal Oropharyngeal	2022-01-04 15:30:10	Negative	

Checked and Approved by  
PCR Nodal officer  
Dept of Microbiology

Note: The results relate only to the specimens tested and should be correlated with clinical findings.

Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/ any other health care facility affirming requirements of the case definition/s.
- A single negative test result, particularly if this is from an upper respiratory tract specimen, does not exclude infection\*
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2-4 days after the collection of the first specimen for additional testing if required. \*
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.

- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
